SUMMARY

A motivated web developer looking for opportunities in Berlin. I have experience in writing simple frontend applications in React and Node.js as backend connected to a MongoDB database. Currently, I'm working towards becoming a Junior Frontend Engineer. I'm looking for an internship or junior position which would allow me to get more experience in my field.

RELEVANT SKILLS

• Javascript, Vanilla JS, React, Typescript, Tailwind
• Node.js, Express, MongoDB, Mongoose, Git
• Basic CI/CD (Gitlab CI)
